Terminology

Terminology used throughout this grant application, eligibility tool, and final report templates are as follows:

Assets are all resources owned and controlled by the organization. It can be grouped into 2 categories tangible (e.g. cash, physical, property) and intangible (e.g. goodwill, copy rights, trademarks). Liabilities are all financial obligations of the organizations (e.g. loans) and Net Assets (or Equity) are earnings left over.

Capital Expenditure- Expenditure on non-current assets such as land, buildings and equipment. Expenditure incurred must result in either the acquisition/construction or addition/enhancement of an asset, e.g. facility enhancement, equipment purchasing.
